Commander's Call

Major General Richard L. Engel

11 Jun 98

REENGINEERING

- What it is
- Why we need to do it
- Who will do it
- When we will do it

REENGINEERING

WHAT IT IS

Reengineering is the fundamental rethinking and *RADICAL REDESIGN* of business *PROCESSES* to bring about *DRAMATIC* improvements in performance

REENGINEERING

WHY WE NEED TO DO IT

- Taxpayer mandate for DoD reduction
- DoD emphasis on weapon system modernization
- Antiquated support systems and business practices
- Excess support infrastructure
- T&E consolidations and competition, and acquisition reform
- *AFFTC FY00 POM reductions*

REENGINEERING

AFFTC FY00 POM REDUCTIONS

- Compete (A-76 & Direct Conversions)
  - Outsourced: Supply
  - Proposed: LG (selected backshops), CE, EM, TPS (selected instruction), Base Library, Transportation, and Current Ops (Scheduling)
  - Divest: One ARIA aircraft, 4 F-16s
- Transfer
  - Selected Civilian Personnel Functions (Palace Compass)

REENGINEERING

AFFTC FY00 POM REDUCTIONS (CONTINUED)

- Reengineer
  - LG (except backshops), Comm, HRD, FM (travel), T&E (unspecified ~$8M/year wedge)
  - 416th/445th FLTS Merger
  - PDM/DLR reductions (passed on from ALCs)

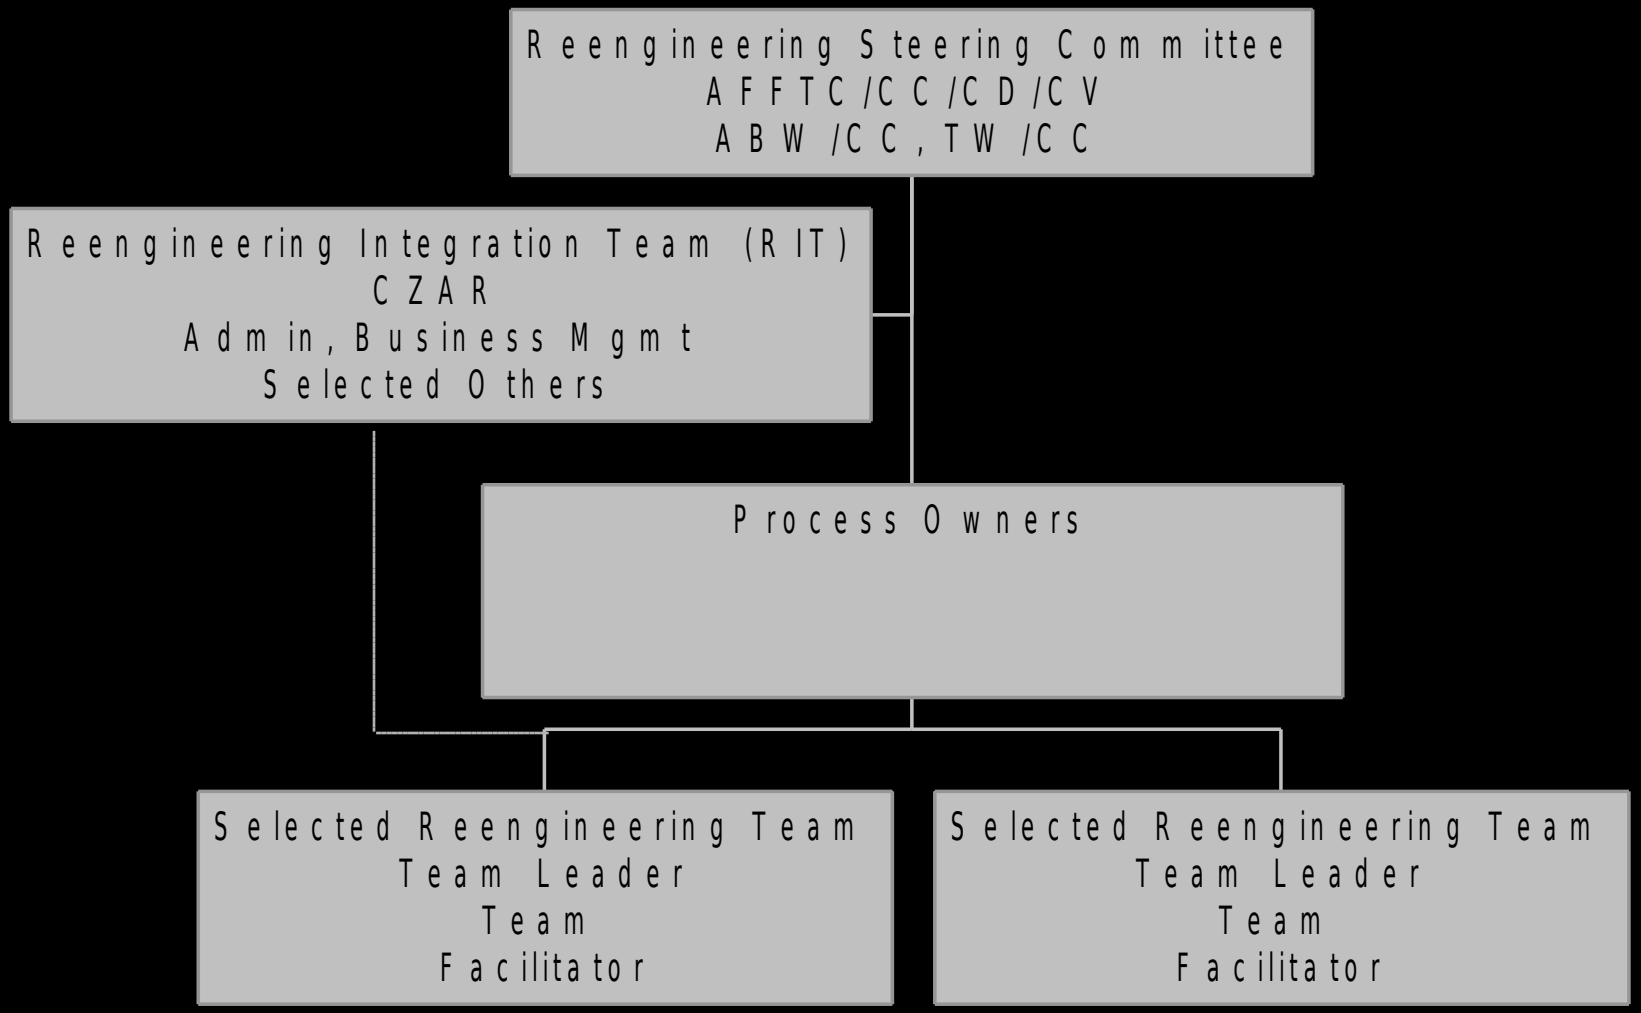
REENGINEERING

WHY WE NEED TO DO IT

- AFFTC is Effective but not as Efficient as we can be - We must:
  - Become more flexible and responsive - less bureaucratic
  - Avoid unnecessary duplication
  - Work more together as an interdependent test center team
  - Reduce time to execute test programs and provide information to the customer
  - Reduce total cost of operations and costs to customers

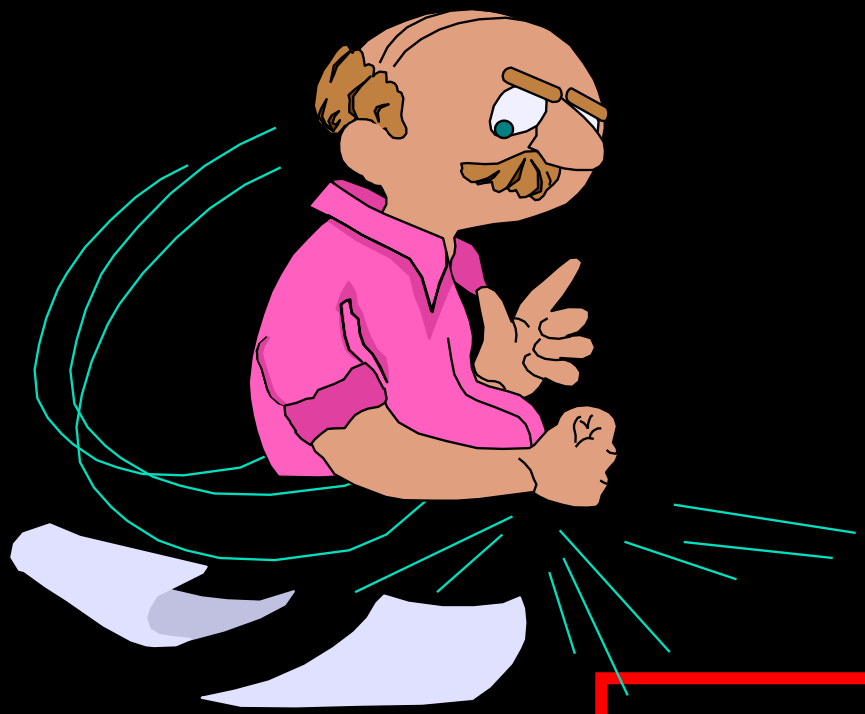
REENGINEERING

WHO WILL DO IT



REENGINEERING

WHEN WE WILL DO IT



NOW !!
